DETAILED ACTION***Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: reference numerals 65-67 with respect to Fig. 9. Corrected drawing sheets, or amendment to the specification to add the reference character(s) in the description, are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: there appears to be no specific description (aside from the Brief Drawing description) of Figure 9 in the specification. It is suggested to include such a description without adding new matter.

Appropriate correction is required.

Claim Objections

3. Claim 72 is objected to because of the following informalities: In Claim 72, line 1, it appears that "radion" should be --radio--. Appropriate correction is required.

Allowable Subject Matter
